**LETTER FROM THE BOARD TO THE SHAREHOLDERS OF
VANGUARD ESG EMERGING MARKETS ALL CAP EQUITY INDEX FUND (THE “SUB-FUND”)**

Vanguard Investment Series plc

*70 Sir John Rogerson's Quay
Dublin 2
Ireland*

(An open-ended umbrella type variable capital company, with segregated liability between sub-funds, established as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

19 January 2022

Dear Shareholder,

We are writing to you as a Shareholder of the Sub-Fund, to advise you of the following:

*An umbrella fund with segregated liability between sub-funds
Irish Company Registration No. 281339
Directors: Peter Blessing (Ireland), Tara Doyle (Ireland), William Slattery (Ireland), Michael S. Miller (U.S.A.), Sean Hagerty (U.S.A.), Ann Stock (United Kingdom), Robyn Laidlaw (New Zealand), Karin Risi (U.S.A.)*

The Sub-Fund seeks to track the performance of the FTSE Emerging All Cap Choice Index (the “**Index**”), an ESG screened index. FTSE Russell (“**FTSE**”), being the Index sponsor, has notified the Company that it intends to make certain changes to the Index methodology with effect from on or around 21 March 2022, in line with the scheduled FTSE re-balancing of the Index (the “**Effective Date**”).

Proposed Changes to the Index Methodology

There is no change to the Investment Objective of the Sub-Fund as a result of the update articulated below, with the Sub-Fund continuing to seek to track the performance of the Index, and there will also be no material alteration to the Sub-Fund’s risk profile or sectoral / country exposures. You are not required to take any action in respect of the proposed changes.

The methodology changes being made by FTSE relate to (a) changes in revenue thresholds used in determining whether or not a company is eligible for inclusion in the Index and/or (b) changes to the permitted level of involvement (i.e., primary and secondary involvement) of a company in the following categories: alcohol, gambling, adult entertainment, tobacco, conventional weapons, civilian firearms and non-renewable energy. Cannabis has also been added as a separate screening category of vice products, whereas it was previously captured within the tobacco screening category.

The Benchmark Index section of the supplement for the Sub-Fund, which forms part of the Prospectus, will also be updated, where relevant, to reflect consistency with the revised index methodology description by which FTSE screens for environmental and social characteristics. The updated Index description can be found in the Appendix to this Notice.

With effect from the proposed Effective Date, up to date details as to the Index’s exact composition, methodology, exclusions and any revenue thresholds, can be obtained at <https://www.ftserussell.com/products/indices/global-choice>.

If you have queries concerning the matters outlined in this Notice, please contact your tax advisor, local agent, or (if none) Vanguard Asset Management, Limited on +44 203 753 4305.

Yours faithfully,

**For and on behalf of
Vanguard Investment Series plc**

Appendix

The Index is a market-capitalisation-weighted index composed of large-, mid-, and small-cap stocks of companies located in emerging market countries. Market-capitalisation is the value of a company's outstanding shares in the market and shows the size of a company. The Index is constructed from the FTSE Emerging All Cap Index (the "**Parent Index**") which is then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

The Index excludes stocks of companies that the sponsor of the Index determines to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities: (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis); (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons). The index methodology also excludes companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles).

Further information in relation to the Index, including current details as to its exact composition, methodology, exclusions and any revenue thresholds, can be obtained at <https://www.ftserussell.com/products/indices/global-choice>
